

Secure Messaging

Purpose: This feature allows patients and practices to send secure messages to one another. In order to read the message, the patient needs to login to their ManageMyHealth account. Providers can read their secure messages through their Provider Inbox in the PMS.

Setting Up Secure Mail Services

Login to your ManageMyHealth, ensuring you have System Admin access.

1. Go to Systems Menu -> Setup Services
2. This will give you the default list of services, which you can keep Active, or inactivate them and create your own using the 'Add New' button.

☒ Show Active ☐ Show Inactive Health Centre VM 06 Millstone Family Practice [Add New](#)

Initiating Messages to Patients

This setting allows staff that are registered to MMH to initiate a message to the patient from the PMS.

There are three ways you can do this:

1. From the toolbar:

2. From the patient manager:

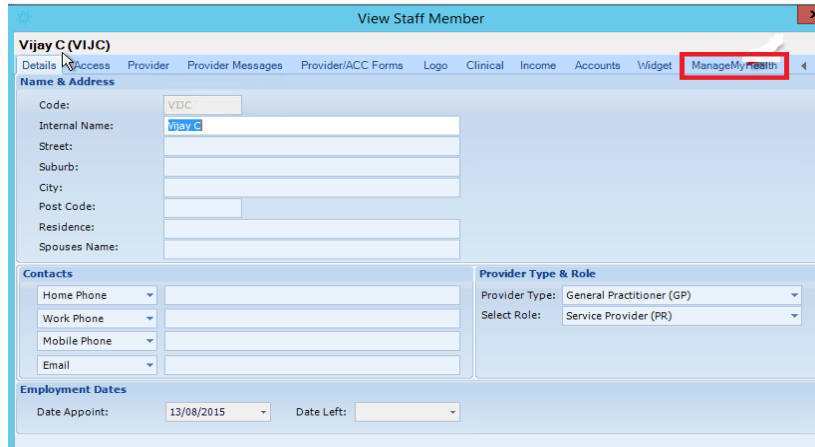

3. From the provider inbox:

Forwarding ManageMyHealth Inbox Messages

You can use this functionality to temporarily redirect all secure mail messages from one Provider to another (for example, if a person is going on leave).

1. Go to File -> Options -> Staff -> Staff Members
2. Select your staff member
3. Click on the ManageMyHealth tab

View Staff Member

Forwarding a Single Message

This allows you to forward a single message from a patient, to a different provider.

1. Open your Provider Inbox
2. Highlight the message that you would like to forward
3. Click the forward button in the ribbon menu

4. Select the provider, and enter the reason, click enter
